**All rooms in the main building have WC and bathroom facilities in the room.

***Camping houses for 2 and 3 form one house with 2 separate entrances. If you are a family of five, you will be in one camping-house with a whole family if you book one house for 2 and one house for 3. There are no WC and bathroom facilities in the houses but the fee includes usage of them in the separate building.

****While booking, please, note that ¼ and ½ of a breakfast means ¼ or ½ of the normal portion.

*****The places for the tent on the field do not need to be booked, but we kindly ask you to fulfill this part for our information (no. of tents, day). The price-list for the camping field has been placed separately on the event-page. Please, note that fees for the tent will include only WC facilities on the field. Every usage of shower facilities have to be paid separately. The overnight in the tent without ordering any meals is possible but, please, note that there are no kitchen facilities on the field, and if you want to cook you have to have all the equipment. Another option is to make a reservation for the meals.
